

## “IM Roofart SRL” invests in fully automated production lines for roof tiles, increasing its productivity

IM Roofart SRL, a leading manufacturer of rainwater systems, purchased and installed fully automated production lines for roof tile sheets. The investment was financed with a loan from the EU4Business EBRD Credit Line. The implementation of the project will allow the company to increase the product quality, decrease the per unit cost and to further extend exports to international markets. In order to receive the loan “IM Roofart SRL” followed the simple LET process, i.e. it used technology, which is on the list of eligible technologies published by the EU4Business EBRD Credit Line. After the successful project verification the company receives 10% of the loan value as a grant incentive, funded under the EU4Business initiative of the European Union.
