

## “Dragos SRL” invests in an automatic machine for furniture production

“Dragos SRL” specializes in trade and distribution of materials and accessories for furniture production, including woodworking services, MDF and plywood, but also metal components. The company upgraded its machine park with a new automatic machine for furniture production. This investment will improve the quality of the products manufactured, it will increase the speed of production and improve the Health and Safety norms in the factory.

The investment project was financed with a EU4Business-EBRD Credit Line loan, where the company followed the simple LET process for standard technologies. After successful project verification the company receives 10% of the loan value as a grant incentive, funded under the EU4Business initiative of the European Union.
