

SRL “Regina Naturii” improves its leadership in the honey market

SRL “ Regina Naturii ” was founded in 2014 as an apicultural company. Since 2016 the main activity of the company revolves around processing and exporting of honey. With a loan from EU4Business-EBRD Credit Line, SRL “ Regina Naturii ” invested in a honey heating room, raw material deposit and in vehicles for transportation of raw material and final products.

The main goal of the company was to increase competitiveness, product quality, environmental protection through improvements of the production and administrative building and purchase of new vehicles designated for raw material and final product transportation, as well as better honey processing and storage.

After the successful project verification the company received 15% of the loan value as a grant incentive, funded under the EU4Business initiative of the European Union.
